# *Prices and Lawn Seed*

In spite of the steady rise in price of other commodities and increased operating costs there has been comparatively little change in the prices of our Vegetable and Flower seed — most of the varieties we catalog being priced now the same as they were five years ago.

Due to circumstances beyond their control, seedsmen and dealers have unfortunately been compelled to make several advances in the price of lawn seed mixtures in recent years and it is therefore reasonable to suppose that purchasers are more interested than ever in knowing the "why's and wherefore's" and what goes into the mixture they intend buying. For this reason WE PRINT, ON PAGE 17, THE ANALYSIS OF OUR NO. 1 FORMULA of which we are justly proud.

People familiar with lawn seed mixtures will immediately recognize our No. 1 Formula as a really high class product and when the price and analysis are compared with other high grade lawn mixtures we are confident our customers will find that we are offering them exceptionally good value.

**PRICES:** Our prices are net and are subject to change without notice in cases due to market fluctuations, etc. We prepay delivery costs on all Flower seed, Vegetable seed (except Potatoes), Grass seed and Bulbs, within 100 miles of shipping point.
